Complex Rehabilitation: New trends in Commissioning and Service Delivery Presented by West Midlands Specialist Rehabilitation Services

Friday 16th June 2017

9-4pm

thestudiobirmingham

7 Cannon Street, Birmingham, B2 5EP

Welcome

We are delighted to announce the inaugural West Midlands Specialist Rehabilitation Services Conference. This conference will be an opportunity to share experience and learning and to explore innovation across the field of complex rehabilitation.

West Midlands Specialist Rehabilitation Services provide an holistic and optimal approach to delivering first class healthcare and technological support to enable people with long term conditions to maximise their potential and quality of life. The diverse nature of our patients' complex clinical needs means that our staff provide a very flexible approach to service delivery. We are involved in liaison and partnership working within clinical pathways to deliver responsive, accessible services for our patients.

The conference standard rate is £75 (to include all refreshments on the day).

We have applied for 6 CPD points. The full programme will be available in early 2017 and you will be asked at a later date for preferences on the themed workshops.

If you are interested in attending this conference, please contact Saima Rehman, Communication and Project Support Manager (saima.rehman@bhamcommunity.nhs.uk).

Please visit our website for more information
